OUR LOCAL ROOTS

YOUR GLOBAL
PACKAGING SOLUTIONS

With pride in our roots, the worldwide presence enables us to emphasize the **importance of our local expertise** while highlighting our **global capabilities**.

MMP Pharma&Healthcare leverages the company's diversity to offer tailor-made solutions and value-added services based on in-depth knowledge built up through extensive experience.

A photograph of two men in an office setting. The man on the left has a beard and is wearing a grey sweater. The man on the right is wearing a green t-shirt with a white circular logo containing the letters 'MM'. They are both looking at a white, rectangular packaging box that the man on the right is holding. The box has a white graphic of a tree on its lid. The background shows a window with a view of greenery outside.

MM

OUR VALUE ADDED **PRODUCTS** WORLDWIDE

Patient safety

Micro-Optics Customized Products

- Fully customizable.
- Can be verified throughout the entire supply.
- Easy to authenticate, difficult to replicate.
- Can be combined with existing safety devices.
- Provides a smart, premium pharmaceutical packaging experience.

Tamper-Evident Features

Can be incorporated into the carton:

- With sealed access points
- Through its flap structure
- By utilizing a label solution

Pre-Serialization and serialization Solutions

We offer agility and flexibility, optimising costs and the coding process.

MM Packaging facilitates pre-serialisation for small runs, codes outside your capabilities or unusual requirements. And with our Clear Code® technology, we support customers improve their productivity rates and safeguard their products.

FRENCH FOCUS

Elevate Your Operations with our Cutting-Edge Machinery Investments

CARTONS

- Our printing equipment in France provides high-quality and optimized processes, enhancing production capacity to meet high standards of lead time. Our printing machines with up to six colors allows us to provide in-line printing of multiple colors.
- Last generation die cutting machines are installed in Chazelles and Valreas, reinforcing quality control and providing larger capacity to cover current and future capabilities of our customers.
- High-quality gluing machines not only secure but also ensure high speed and capacity of gluing cartons in France.

LEAFLETS

- Our three sites in France are dedicated to the production of pharmaceutical leaflets, supported by comprehensive backup plans.
- The cutting-edge technology of digital leaflet printing in L'isle D'Espagnac optimizes efficiency by facilitating the printing of up to 4 colors on both sides in a single run, particularly created for small runs.
- Our advanced folding equipment in France is specifically designed to enable the intricate folding of complex leaflets, following the trends in the pharma industry.

MM Packaging Value Added Products & Services in France

COMBOPACK / PACKINSERT:

Our supply chain service ComboPack / PackInsert enables cartons to be pre-loaded with a cross-folded leaflet before contents are added, removing the need for a separate folding process, simplifies the packing, improves efficiency ratio and supports enhanced speed to market.

PRE-SERIALISATION:

Pre-serialisation services offer speed and flexibility to our customers, providing cost advantages for small production runs, out-of-capacity codes, and complex or non-standard requirements through our pre-serialised cartons and labels.

HYBRID PRINTING:

Digital Printing technology complements traditional offset printing, fostering increased creativity in packaging production, the ability to produce smaller batches, and the flexibility to accommodate frequently changing designs.

At our L'Isle D'Espagnac site we have the HP digital printer with CMYK printing, front and back, in a singles pass.

- Reel-to-reel, reel-to-sheet or reel-to-leaflet.

COLD FOIL:

Fully customised metallic finishes for our customers with cold foil technology, which improves the aesthetics of the final product and reduces foil consumption per job.

PRODUCT DEVELOPMENT SUPPORT:

Our team in Chazelles serves the French market with product development support, from product conception to the entire supply chain process. At the same time we take advantage of our global interconnections to offer our products and services at all our sites, and to be at the forefront of innovation.
