GLOBAL ROOTS

YOUR GLOBAL
PACKAGING SOLUTIONS

With pride in our roots, the worldwide presence enables us to emphasize the **importance of our local expertise** while highlighting our **global capabilities**.

MMP Pharma&Healthcare leverages the company's diversity to offer tailor-made solutions and value-added services based on in-depth knowledge built up through extensive experience.

A photograph of two men in an office setting. The man on the right is wearing a green t-shirt with a white circular logo containing the letters 'MM'. He is holding a white rectangular box with a tree graphic on top. The man on the left is wearing a grey sweater and is looking at the box. The background shows a window with a view of greenery outside.

- Provides a smart, premium pharmaceutical packaging experience.

Tamper-Evident Features

Can be incorporated into the carton:

- With sealed access points
- Through its flap structure
- By utilizing a label solution

Pre-Serialization and serialization Solutions

We offer agility and flexibility, optimising costs and the coding process.

MM Packaging facilitates pre-serialisation for small runs, codes outside your capabilities or unusual requirements. And with our Clear Code® technology, we support customers improve their productivity rates and safeguard their products.

SPANISH FOCUS

Customer-Centric Commitment: prioritizing their needs above all else

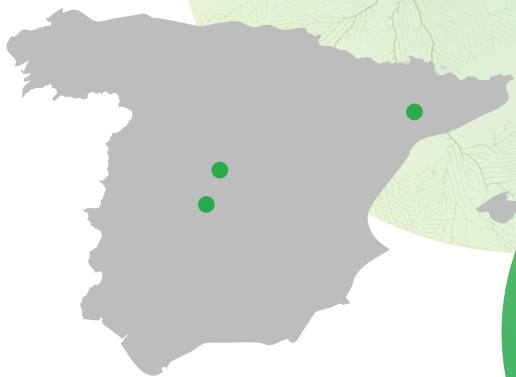

Quality, efficiency, competitiveness, and flexibility serve as the cornerstone of our success.

At **MM Packaging Spain**, we firmly believe that our customers are at the heart of everything we do. Our focus is not just on meeting their needs but exceeding their expectations. To achieve this, we aim to run our activity based on four fundamental pillars: **comprehensive understanding of the customer, deep customer engagement, versatile approach, and an unwavering commitment to leading pivotal projects.**

With **three strategically located production sites**, we guarantee proximity to our customers, ensuring **reliability, trust, and added values** to solve their problems.

Specializing locally in **folding boxes**, our global capabilities enable us to offer comprehensive secondary pharma packaging solutions, including **leaflets, labels, and foil.**

This fusion of **local expertise and global reach** empowers us to address a wide array of needs, crafting tailored solutions. We adapt, we innovate, and we lead, all with the singular goal of ensuring our customers' success and satisfaction.

 Digital Cartons

Our Value Added Products & Services in Spain

COMBOPACK:

ComboPack enables cartons to be filled with secondary packaging materials, such as leaflets, labels or patient cards before adding contents. This technology eliminates the need for a separate gluing process or off-line handling, simplifying packaging lines.

PRE-SERIALISATION

Our pre-serialization services provide the capability to serialize for any market, regardless of complexity, ensuring efficient and compliant packaging solutions tailored to your specific needs.

DIGITAL PRINTING:

This technology complements traditional offset printing, fostering creative packaging production, smaller batches, and designs that change frequently, at competitive prices.

ANTI-COUNTERFEITING SOLUTIONS:

Our comprehensive range of anti-counterfeiting measures includes both overt and covert techniques. Focused on ensuring both patient and laboratory safety, our cartons incorporate high-security features and the latest tracking and tracing innovations.

TAGS DISPENSING:

Experience automated label application for precise dosage, expiration dates, and product codes with our innovative tag dispensing service. Ensure patient safety and compliance effortlessly, elevating your pharmaceutical packaging standards.

ASSEMBLING / KITTING:

Discover the ease of our pre-assembled cartons and fitments, ideal for the injectable market and vials. Simplify warehouse logistics while enhancing efficiency, accuracy, and convenience in medication distribution.
